## PUT A TIGER IN YOUR TANK!

And what a Tiger! New High-energy Enco Extra gasoline uncages the power of your engine. It gives you the: (1) cleaning power; (2) firing power; (3) octane power for smooth performance and a strong, exciting response when you hit the accelerator. Get more fun out of driving with a Tiger in your tank! **Happy Motoring!**

### Victory Will Be Achieved When

- Average citizens “understand” (recognize) uncertainties in climate science; recognition of uncertainties becomes part of the “conventional wisdom”
- Media “understands” (recognizes) uncertainties in climate science.
- Media coverage reflects balance on climate science and recognition of the validity of viewpoints that challenge the current “conventional wisdom”
- Industry senior leadership understands uncertainties in climate science, making them stronger ambassadors to those who shape climate policy
- Those promoting the Kyoto treaty on the basis of extant science appear to be out of touch with reality.

### Current Reality

Unless “climate change” becomes a non-issue, meaning that the Kyoto proposal is defeated and there are no further initiatives to thwart the threat of climate change, there may be no moment when we can declare victory for our efforts. It will be necessary to establish measurements for the science effort to track progress toward achieving the goal and strategic success.
